PHYSICAL & MENTAL CAPABILITY REQUIREMENTS

- The student must be physically able to perform required task/skills as lifting, transfers, communicate with client/resident and provide client/resident cares with the use of their arms, hands, and or mechanical lifts as necessary.
- Participant must be able to read and understand the textbook, handouts and other materials to meet the theory requirements. This requires a minimum ninth grade reading level.

Please Note: The agency is unable to accommodate an individual with lifting restrictions, or individuals that are: blind, have limited dexterity of fingers, have limited use of hands and arms, are wheel chair bound, are deaf, or those that are unable to speak or read, as the theory and training task/skills requires the participant to successfully complete a number of skills, and possess the ability to communicate with the client/resident to meet necessary competency requirements to complete the course.

HEALTH REQUIREMENTS

TB Testing Policy

Our partner clinical facilities are governed by laws that require them to protect the health and safety of their residents. Higher Learning CNA Training enables them to fulfill this duty to their residents by taking steps to require you to prove you have taken the necessary precautions to prevent the introduction and spread of communicable diseases like TB to their resident population. Accordingly, we require our students to provide documentation of the following:

- Negative results from a TB test (if results are positive the student must complete a chest X-Ray)
- Completion of the Health History Form

These items are collected only to ensure you are an eligible to complete clinical rotation at our partner clinical facilities and will be shared with clinical facility administration and Wisconsin Caregiver Training Program regulatory bodies but will not be shared with any other entities or used for any other purposes not mentioned within this paragraph without the student's express written consent.

These items are maintained by the clinical facilities and by Higher Learning CNA Training. Higher Learning CNA training maintains these records for a period of three years after which they will be securely destroyed. These items may be maintained by the clinical facilities for a longer period as deemed necessary under the individual clinical facility's policy or as regulated by State of Wisconsin or federal regulatory bodies. These items will also be destroyed as outlined in the clinical facility's policy or as regulated by State of Wisconsin or federal regulatory bodies.

If TB test results and Health History Form are not provided, it will result in the student not being able to complete the clinical.

Pregnancy Policy

Higher Learning CNA Training. recognizes the need to protect all our students from any potential harm to themselves or their unborn children if pregnant. If a student is pregnant, we must receive a letter or form from her obstetrician or nurse midwife that she is physically able to complete classroom training and clinical in the nursing home during her pregnancy without accommodations or restrictions of any kind.

This policy is implemented to achieve this goal. Because of changes in health needs and potential restrictions on activities during pregnancy, the following will apply to pregnant students:

Higher Learning CNA Training

1810 Kensington Dr

Second Floor

Waukesha, WI 53188

Ph: (262) 400 - 8617123

The student will:

1. Inform the classroom/clinical instructor or administrative assistant as soon as possible regarding the pregnancy and
2. Submit the appropriate letter or form from her obstetrician or nurse midwife at the following times verifying that the student is in satisfactory physical condition to attend class, skills lab and clinical without accommodation or restrictions.
 - Before class begins if known before the start of class
 - When the pregnancy is confirmed or
 - If the classroom or clinical instructor becomes concerned about the health and well-being of the pregnant student and the unborn child.
3. If at any time the obstetrician or nurse midwife states the student is unable to perform expected tasks, functions, and studies for the course, the student is expected to notify Higher Learning CNA Training as soon as possible and she will be withdrawn from the course and will be allowed to complete her training during an upcoming class/clinical rotation as space is available. Before the student will be scheduled for training the student must:
 - Provide a letter or form from her obstetrician or nurse midwife stating that she is physically able to do clinical in the nursing home during her pregnancy without accommodation or restrictions.

In the absence of written disclosure, a student cannot be considered pregnant. However, each student will be expected to sign a statement that she has read this policy, and that she understands that failure to abide by this policy will be grounds for termination from the training course by the administrator or clinical instructor.

Substance Abuse Policy

Higher Learning CNA Training will provide an environment, which is free from the use, sale, possession, or distribution of illegal drugs and/or alcohol. Additionally, everyone must be able to perform their duties without the presence of illegal drugs or alcohol in their system. To manufacture, use, possess, sell, purchase, or transfer any illegal drug is prohibited, while on Higher Learning CNA Training property or at other training related locations. Higher Learning CNA Training prohibits the use or abuse of such drugs to the extent that one's performance, fitness for classroom or clinical activity, and safety are adversely affected. This policy is to ensure a safe, healthy, and work efficient environment for everyone at Higher Learning CNA Training and the general public. The administration of Higher Learning CNA Training will utilize every reasonable measure to maintain a drug and alcohol-free environment.

Anyone who is found to use, sell, possess, or distribute any illegal drug while in training-related activities, on Higher Learning CNA Training premises or its other training locations, will be subject to disciplinary action. Any illegal substance or paraphernalia confiscated will be turned over to the appropriate law enforcement agency for additional investigation and appropriate action. Being arrested or charged with illegal possession, use, or distribution, can subject anyone to disciplinary action.

Instructor/Staff Responsibility

Every instructor/staff member working for the Higher Learning CNA Training is required to ensure a safe and effective work environment for students/patients. Instructors/staff members will be subject to disciplinary action if the Substance Abuse and Drug Testing Policy is not personally supported in principle and practice. It is part of professional obligation to report unsafe practice according to American Nursing Association code of ethics.

Referral of Questions

Questions concerning this policy should be directed Higher Learning CNA Training administration.

My signature below indicates I have read and agree to be bound by the requirements, standards, policies, and procedures set out in Higher Learning CNA Training's physical & mental capability requirements & its health requirement policies which include policies and requirements for physical & mental functioning and capability, TB testing, pregnancy and substance abuse. I understand that I will be held accountable for deviation from these requirements and obligations and that such deviation may result in disciplinary action taken against me including suspension or release from the course. I also understand that Higher Learning CNA Trainings policies are subject to change at any time with or without verbal or written notice. Questions regarding updates may be directed to the Administrator.
